## **Version 1.2.0 (2019-02-17)**

### **General**

The Mobile / GNSS container version 1.2.0 requires MICA Base Firmware 4 or higher.

### **New Features**

- The external mobile IP address is being displayed in the UI.
- The ISP can be edited in the UI.
- The mobile service gets restarted automatically after a container or MICA restart
- The web UI of the Mica Base system is available through VPN over LTE at <https://mobileIP:8443/>

### **Known Issues**

- mDNSv4 address resolution from containers to the local MICA base address, eg. ping -4 mica-xyyz.local is not supported on MICA Wireless.
